① Assignment - 1

Define a problem statement and give a brief Executive summary snapshot

A) Executive Summary
B) project Description
C) project scope

A) Executive Summary

Analysis - CNG Vehicle drivers have to stand in line for hours to fill up CNG gas and waste a lot of time for that sometimes they cannot find CNG stations early so they cannot reach their work on time.

Finding - The solution for this is that we will create an app for this, it will also have the facility of goole map so that we can find the station quickly and we can also put the number to fill gas through this CNG app so that we don't waste our time, and CNG stations are also available at different places.

project description - This app will be used by day maximum number of people. This will remove people's problems, life will be smooth, their time will not be wasted, and they will be able to reach their work time. No more time spent searching on for CNG filling stations or queuing up.

Project scope – Ensuring maximum utilization of this app in the future. it will set the map of the CNG station. and you can watch the stations live. you can apply the number online.
